

Strand Pelletizer

Helical Cutter—Operating at a slower speed, reduces overall noise and power consumption

Marathon Series offers reliability, long production cycles, easier access and maintenance, high-quality pellets and faster delivery of resin pellets.

NEMA 12 Enclosure

Bolt on knives are easy to replace and re-sharpen. They are available in a wide variety of materials

Strand Pelletizer Offers Rugged and Reliable Service

The comprehensive range of strand pelletizers available from Cumberland are ruggedly constructed to deliver round-the-clock reliability at high production rates. Their proven performance

and durability make them a cost effective investment for resin producers, compounders and reclaimers alike.

Strand Pelletizer

Strand Pelletizer Features

- Synchronized feed roll and rotor speeds providing accurate pellet-length control
- Quick-change gears
- Infeed Widths: 6" to 32"
- Strand capacities of 30 to 180
- Option of helical cutters or bolt-on knives
- 12 to 75 cutting edges available
- Upper feed roll is pneumatically loaded, polyurethane covered stainless steel and the lower feed roll is stainless steel/knurled
- Cut length: 1/8" standard (others available)

Super Quietizer

- Inner cover and discharge chute reduces pellet noise
- Infeed muffler reduces noise at operator position
- Side pivoting hood made from high performance acoustic foam laminates
- Enclosed base-support frame with acoustic foam lining contains motor and transmission noise

Utilizer Series

- Delivers reliable performance in low to medium production applications
- Space saving compact and portable design
- Easy clean out making it ideal for short production runs

Marathon Series

- Slant cut rotor with 48 small solid knives distributing cutting action keeping knives sharper, longer
- Movable rotor and fixed bed knife mounting support allows sensitive knife gap adjustment as low as .001"
- Quick release and easy cleaning cutting chamber
